

SECRETARIES ANNUAL REPORT

This year has seen the Group grow and consolidate within the wider BS10 area. We have held meetings each month with the exception of December. The average attendance over the year is 13 with highest being 23 (public meeting) and the lowest 9. This is an area where we need far greater representation from the public.

We have held one successful meeting in the new Henbury Community Centre, and it is our intention to alternate between Greenway and Henbury in the future, which will, hopefully, help us to be more representative of both the major areas of BS10.

We have, during the year, had moderate success in gaining recognition within the community and wider afield of our ability to assist in major developments.

With the airfield and surrounding areas plans gathering pace it is more important than ever that we retain and enhance the ability to keep our community up to date and informed of the impact these will have on us all.

As can be seen we now have our own logo, thanks to the help provided by United Communities.

This coming year will see even greater challenges with Council budget cuts and withdrawal of officer support, it will mean that as a Group we support both Southmead and Henbury and Brentry in their endeavours to mitigate these.

We enter this coming year, with the aim of increasing our regular members, and perhaps persuading members of the youth club to join us.

Mike Murch

Secretary.
